JCSSE is an international conference held annually in Thailand, it provides a central forum for experts and developers to promote, share, and discuss various issues and developments in the broad field of computer science and software engineering. JCSSE will provide an opportunity for young researchers to demonstrate their talents and interesting research ideas. The conference will benefit people who are actively involved in research related to data science, computer science, computer engineering, software engineering and digital libraries in Thailand. the review process, the journal uses double-blind review. After the manuscripts pass the first step, it will be assessed by at least three reviewers.

Paper Publications

Presented papers will be included in the Proceedings of **JCSSE2023** and in **IEEE Xplore** pending author requirements being met. Authors may submit extended versions of their papers to some prestigious journals.

List of Topics *(but not limited to)*

- Database and Information Retrieval
- Software Engineering and Software Development
- Image Processing and Computer Vision
- Health and Bioinformatics
- Human Computer Interaction and Affective Computing
- Data Science
- Cloud and Grid Computing
- Ontology and Semantic Web
- Internet of Things and Embedded Systems
- Information Forensics and Cybersecurity
